

State-of-the-Art Technology to Grow Your Business

REALTOR® Services

Property Profile

Interested to see what is on the title of a property before you place the offer or accept the listing? Chicago Title's "Property Profile" will provide you with a report that will show any liens against the property; show whether or not taxes are paid; show any judgments filed.

Premier Services

Access to the most comprehensive and reliable property data in the industry and more, all from the site!

Corefact

Corefact's signature product is a direct mail marketing system that provides a connection between your postcards and your online presence. We print and mail postcards personalized with a map of recent sales activity, the homeowner's name and address, and a unique key code all personalized to that particular consumer. The recipient uses the key code to obtain an instant home value estimate online in a free, confidential and low barrier way. Homeowner activity on the website is tracked and ranked for your review and follow up so you know as an Agent, exactly where to spend your time, with a qualified prospect.

EC Purchasing

Helps reduce expenses for businesses in the real estate industry that work with Chicago Title companies. A wide range of vendors participate and the list keeps growing.

On-The-Go Mobile Apps

TitleNow.

Property background wherever you are. Life is busy in the real estate industry. When you are trying to build business, meet client needs and stay on top of market conditions, you need to be as productive as possible. Don't slow down, stay on-the-go with TitleNow.

ChicagoAgent

With the ChicagoAgent worksheet, you can easily create net sellers proceeds estimates for your clients in a few simple steps. Unlike most web-based calculators, ChicagoAgent is designed to produce the most accurate estimate possible with the least amount of time and guesswork.
